INDEX

Owing to the fact that photographs could not be given a strict alphabetical arrangement, on account of the different sizes, colors, etc., it is necessary that those not alphabetically arranged be indexed.

To find any photograph, turn to the State in which it appears; find the letter of the alphabet with which the name begins; following this letter will be found the page numbers containing photographs beginning with this letter of the alphabet.

For various reasons it was impossible to include all photographs under their respective states. Such photographs were included in the Supplement at the close of Volume III. If the photograph is not found under the state headings consult the Index to Supplement.
